

Spokane Community College and Spokane Falls Community College

ASSOCIATE IN PRE-NURSING

DIRECT TRANSFER AGREEMENT/MAJOR RELATED PROGRAMS (DTA/MRP) DEGREE REQUIREMENTS

The Associate in Pre-Nursing DTA/MRP degree is a statewide articulated transfer degree agreement for nursing majors between the community colleges and most four-year institutions. The Associate in Pre-Nursing DTA/MRP degree shall only be granted to students who have earned a cumulative grade point average of at least 2.0, as calculated by the degree awarding institution. Students will enter the university at junior standing. Admission to Washington four-year institution's schools of nursing is not guaranteed to students holding a DTA/MRP degree. It is highly recommended that students meet with a counselor or academic adviser at Spokane Community College, Spokane Falls Community College or the Institute of Extended Learning on a regular basis to be sure that requirements specified in this degree are met. Students should also seek academic advising at the four-year institution to which they plan to transfer early in their educational planning to learn about additional requirements and procedures for admission. To earn this degree, students must complete 100-105 credits in courses numbered 100 or above and meet specific distribution requirements. Courses must be chosen from the following specified categories: communication – 15 credits, quantitative/symbolic reasoning – 5 credits, humanities – 15 credits, social sciences – 20 credits, mathematics/science – 40-45 credits, health-related and physical education/recreational and leisure activities – 5 credits. **At least 5 credits must be W-designated (writing-intensive). At least 5 credits must be D-designated (global/diversity).** At least 30 credits must be earned from Spokane Community College or Spokane Falls Community College. At SFCC, all prior college-level credits and grade points are transferred for calculating total credits and GPA. **NOTE: Students should always check with the receiving university for additional requirements. Most have competitive admissions and require one year of residency at their institution.**

DISTRIBUTION Credits for a specific course may be used in only one distribution area requirement.**2008-2009**

COMMUNICATION 15 credits

Courses from this area do not satisfy the writing-intensive requirement.

It is recommended that sequential science courses be completed at one institution.

NOTE: Some institutions have requirements for admission to the major that go beyond those specified above. Students can meet these requirements by careful selection of an additional elective course. Students should work with a counselor or academic adviser for further guidance specific to their goals.

NOTICE: Due to the specialized nature of many of the listed courses, students should consult a counselor or academic adviser and the catalog of the four-year institution to which they plan to transfer for specific degree requirements.

DISCLAIMER: During the period this guide is in circulation, there may be curriculum revisions and program changes. Students are responsible for consulting the appropriate academic unit or adviser for more current and specific information. The information in this guide is subject to change and does not constitute an agreement between the college and the student.
