

# Spokane Community College and Spokane Falls Community College

## ASSOCIATE OF SCIENCE TRANSFER (TRACK 2)

### DEGREE REQUIREMENTS

#### COMPUTER SCIENCE, PHYSICS, AND ATMOSPHERIC SCIENCE

The Associate of Science Transfer (AS-T #2) degree is designed to prepare students for upper division study in the areas of computer science, physics, and atmospheric science. A candidate for the Associate of Science Transfer degree must complete a minimum of 90 quarter credits in academic courses numbered 100 or above with a cumulative grade point average of at least 2.0 and meet specific distribution requirements. Courses must be chosen from the following distribution areas: communication – 5 credits, humanities/social sciences – 15 credits, mathematics – 10 credits, science – 30 credits, and 30 credits in approved academic electives. **At least 5 credits must be W-designated (writing-intensive).** At least 30 credits must be earned in residence from Spokane Community College or Spokane Falls Community College with at least 15 credits earned in the required distribution areas at the college awarding the degree. Prior college-level credits and grade points are transferred for calculating total credits and GPA. This degree does not fulfill all general education requirements of four-year institutions.

## DISTRIBUTION

Credits for a specific course may be used in only one distribution area requirement.

## 2013-2014

### COMMUNICATION 5 credits

Courses from this area do not satisfy the writing-intensive requirement.

ENGL& 101, 102, 235  
JOURN 220

### HUMANITIES/SOCIAL SCIENCES 15 credits

Minimum of 5 credits from Group A: Humanities.  
Minimum of 5 credits from Group B: Social Sciences.  
Additional 5 credits from Group A or Group B.  
No more than 5 credits in a foreign language or ASL.

#### GROUP A: HUMANITIES

### MATHEMATICS 10 credits

10 credits at or above introductory calculus.  
MATH 220, 274; MATH& 151, 152, 153, 254

### SCIENCE 30 credits

Each group must be satisfied.

#### GROUP A: Physics<sup>1</sup> (15cr sequence)

PHYS 101, 102, 103 **OR** PHYS 201<sup>2</sup>, 202<sup>2</sup>, 203<sup>2</sup>

#### GROUP B: Chemistry (5cr)

CHEM& 161, 162, 163, 241/251, 242/252, 243/253

#### GROUP C: Computer Programming<sup>2</sup> (5cr)

CS 142 **OR** CS& 141

#### GROUP D: Third quarter calculus or approved statistics course (5cr)

MATH 221 **OR** MATH& 153

**Note:** Transfer requirements vary based on major. Students should consult with their counselor or academic adviser and the appropriate department at the transfer university.

<sup>1</sup> Some four-year institutions require physics with calculus to meet this requirement.

<sup>2</sup> Courses offered at SFCC only

### ELECTIVES 30 credits

An additional 30 quarter credits, as needed, to satisfy the 90 quarter credits required for this degree. These courses should be planned with the help of a counselor or academic adviser based on the requirements of the specific discipline at the four-year institution the student plans to attend.

### NOTES:

1. Students are responsible for checking specific major requirements of four-year institutions in the year prior to transferring.
2. It is recommended that sequential science classes be completed at one institution.
3. Students completing this Associate of Science Transfer (AS-T) degree will receive the same priority consideration for admission to the four-year institution as they would for completing the direct transfer associate's degree and will be given junior status by the receiving institution; this degree does not guarantee student's admission to the major.
4. Additional general education requirements, cultural diversity requirements, and foreign language requirements, as required by the transfer institution, must be met prior to the completion of a baccalaureate degree.
5. This degree may not fulfill all general education requirements of a particular baccalaureate institution. Students should work with a counselor or academic adviser for further guidance specific to their goals.

**NOTE:** Some institutions have requirements for admission to the major that go beyond those specified above. Students can meet these requirements by careful selection of additional elective courses. Students should work with a counselor or academic adviser for further guidance specific to their goals.

**NOTICE:** Due to the specialized nature of many of the listed courses, students should consult a counselor or academic adviser and the catalog of the four-year institution to which they plan to transfer for specific degree requirements.

**DISCLAIMER:** During the period this guide is in circulation, there may be curriculum revisions and program changes. Students are responsible for consulting the appropriate academic unit or adviser for more current and specific information. The information in this guide is subject to change and does not constitute an agreement between the college and the student.

# ASSOCIATE OF SCIENCE TRANSFER (TRACK 2) DEGREE COMPUTER SCIENCE, PHYSICS AND ATMOSPHERIC SCIENCE WORKSHEET 2013-2014

A minimum of 90 quarter credits are required. **At least 5 credits must be W-designated (writing-intensive).** See reverse side for the complete statement of degree requirements and listing of available courses. (Credits beyond required amounts in categories I through V are counted as electives.)
